LITHUANIA

"This decline over five years is, in part, due to the addition of 32 new countries in the 2012 Prosperity Index. In this instance, three of these new countries placed above Lithuania."

- » Lithuania has kept its 43rd rank on overall Prosperity since 2009
- » The Economy sub-index has moved down twenty-five places to 94th because of an increase in the unemployment rate and a decrease in the volatility-adjusted FDI as well as the satisfaction with living standards.
- » The Education sub-index has moved up by three places to 28th given a decrease in the Teacher to pupil ratio and an increase in the secondary education per worker.
